starting September 28 @ 3:00**

*Join other educators who share a
passion for special education and
want to improve student outcomes*

Project Prepare

NEW for the 2021-2022
school year!

Project Prepare professional learning and the Community of Practice opportunities will be **available to all educators in the state of Arkansas.**

A little more about Project Prepare:

The goal of Project Prepare is to close the research to practice gap using the **science of systems change** and a continuous cycle of improvement. Project Prepare supports special education teams as they implement **evidence-based, high-leverage, and inclusive practices**. Participants have access to monthly **professional learning**, the opportunity to participate in a statewide **community of practice**, and will receive task analyses with TESS alignments to assist in implementing their learning.
